PLAN REVIEW PROCEDURE TO OBTAIN A FOOD SERVICE OPERATION/RETAIL FOOD ESTABLISHMENT LICENSE

1. A detailed set of plans must be submitted to this office for review along with the Food Service Operation (FSO) or Retail Food Establishment (RFE) Plan Review Application prior to construction of a new food operation. No plan review will be performed prior to submission of the review fees.
2. The plans are then reviewed to ensure there are no problems with the flow of food preparation and to ensure compliance with all existing rules and regulations. A plumbing permit cannot be obtained and building permits may be put on hold until plan approval through our office is complete. A letter regarding the status of the plans will be sent within thirty (30) days of each submittal. Following review, the proper risk classification will be determined and the appropriate license fee included in the approval letter.
3. BCGHD shall be contacted at least 7 days in advance for a precicensing inspection prior to the opening of the FSO/RFE and must be ready to open at time of final inspection. Any issues that must be addressed will be stated on the opening inspection report for further follow-up. Criteria for licensing include verification the operation was constructed according to the approved plans and all equipment matches the approved plans. Additional details and requirements will be provided on the plan approval letter.
4. Plumbing permits are necessary for any changes or additions to the plumbing system. Contact the Plumbing Division at (513) 863-1770. All plumbing, building, fire, and electrical inspections must be completed before final approval for opening is granted by BCGHD.
5. Person-In-Charge certification in Food Protection is required for each shift manager for any new food service operation or retail food establishment. All risk level 3 and 4 facilities are required to have at least one manager with an Ohio Manager Food Protection certification. Approved course providers in the area are listed at the link below.

http://www.healthspace.com/Clients/Ohio/Ohio_Website_Live.nsf/FoodCertifications.xsp.

Food service staff available for questions on work days 8AM-9AM.

PLAN REVIEW PROCESS FLOW CHART

CONTENTS AND FORMAT OF PLANS AND SPECIFICATIONS

Provide plans that are a minimum of 11 X 14 inches in size including the layout of the floor plan, accurately drawn to scale. This is to allow for ease in reading plans. The plans must include the following:

1. The total square footage to be used for the food operation or retail food establishment.
2. Source of water supply and method of sewage disposal. Provide the location of these facilities and submit evidence that state and local regulations are complied with.
3. A site plan including the location of the business in reference to location in a building such as a shopping mall, neighboring streets, alleys and/or buildings and any outside support infrastructure such as dumpster areas, potable water source, and sewage treatment systems.
4. Interior and exterior seating areas.
5. Entrances and exits to facility, including any delivery entrances and loading unloading docks.
6. A layout of the facilities showing location of the following:
 - a. All equipment such as cooking equipment, refrigeration equipment, holding equipment, slicers, mixers, etc.;
 - b. All plumbing fixtures, including the location of all hand sinks, warewashing sinks, food preparation sinks, dump sinks, mop sinks, dish machines and hot water heaters. Plans must indicate how and where all multi-use items, small wares, and utensils will be staged for air drying and final storage;
 - c. Location of mop sinks or curbed cleaning facilities with area for hanging wet mops, and any garbage can washing areas;
 - d. Location and purpose of any auxiliary areas such as employee break rooms, dressing rooms, walk-in coolers/freezers, ware washing rooms, dry food storage rooms, chemical storage rooms, garbage storage, and basements. Indicate how food and food-related in these areas;
7. Plumbing schedule including location of floor drains, floor sinks, water supply lines, , hot water generating equipment with capacity and recovery rates, backflow prevention devices, all wastewater lines with connections, and grease traps. An isometric drawing of the plumbing system is required for any plumbing changes.
8. Lighting schedule:
 - a. At least 10 foot candles (110 lux) at a distance of 30 inches (75 cm) above the floor and in walk in refrigeration units and dry food storage areas and in other areas and rooms during periods of cleaning;
 - b. At least 20 foot candles (220 lux) at the following:
 - i. At a surface where food is provided for consumer self-service such as buffets and salad bars or where fresh produce or packaged foods are sold or offered for consumption;
 - ii. Inside equipment such as reach-in and under-counter refrigerators;

- iii. At a distance of 30 inches (75 cm) above the floor in areas used for handwashing, warewashing, and equipment and utensil storage, and in toilet rooms; and,
 - c. At least 50 foot candles (225) at a surface where a food employee is working with food or working with utensils or equipment such as knives, slicers, grinders, or saws where employee safety is a factor;
 - d. All lights in food preparation areas must have a protective shield.
9. An equipment list with the make and model of ALL equipment to be used in the facility. All food equipment must be of a commercial grade and the food equipment schedule must include make, model numbers, and certification status of equipment. Equipment should be certified or classified for sanitation by an ANSI accredited certification program (when applicable). Accreditations accepted are NSF, UL Sanitation, ETL Sanitation, and CSA Sanitation.

10. Complete finish schedule for each room, including floors, walls, ceilings, and coved junctures bases. Ceiling tiles used in food preparation rooms, restrooms, and warewashing areas must be vinyl-clad.

ALL COMPONENTS ABOVE ARE REQUIRED FOR APPROVAL AND ANY INCOMPLETE PLANS WILL BE REJECTED AND MUST BE RESUBMITTED.

PHYSICAL FACILITIES

WATER SUPPLY	
Is the water supply public or private?	PUBLIC <input type="checkbox"/> PRIVATE <input type="checkbox"/>
If private, has the source been approved by the EPA? <i>Please attach a copy of written approval and/or permit, if applicable.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Is the hot water tank sized sufficiently, particularly during peak demand times?	YES <input type="checkbox"/> NO <input type="checkbox"/>
SEWAGE DISPOSAL	
Is the building connected to a municipal sewer?	YES <input type="checkbox"/> NO <input type="checkbox"/>
If no, is the building connected to an EPA-approved private treatment system? <i>Please attach a copy of written approval and/or permit if applicable.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Are grease traps provided in this facility? <i>Grease traps are required if facility is preparing ANY grease-bearing foods. Grease traps must be properly sized according to size of 3-compartment sinks. Please have your plumber contact The Plumbing Division at the Butler County General Health District at 513-863-1770 prior to installing to ensure proper sizing.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Size of grease trap (in gallons per minute)	GPM
Location of grease trap	
PLUMBING FIXTURES	QUANTITY
Hand sink(s) <i>Note: Hand sinks must be conveniently located and more than 20 feet to all food prep and ware washing areas.</i>	
Do all hand sinks have hot and cold running water (at least 100°F), soap, means of drying hands (paper towels, air dryers etc.), a waste basket, and hand washing signage?	YES <input type="checkbox"/> NO <input type="checkbox"/>
Warewashing sink(s) <i>Note: New warewashing sinks must be indirectly drained with an <u>air gap</u> to prevent backflow.</i>	
Is the 3 compartment sink large enough to accommodate the largest piece of equipment within the facility?	YES <input type="checkbox"/> NO <input type="checkbox"/>
Are there drain boards for both dirty and cleaned dishes? <i>Adequate space must be available for proper air drying of dishes.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/> If no, explain:
Mop/Utility sink(s)	
Are there hangers/hooks installed for proper mop drying?	YES <input type="checkbox"/> NO <input type="checkbox"/>
Food preparation sink(s) , if required <i>Food preparation sinks are required if any food/produce will be washed, soaked, thawed or cooled using an ice bath. All food prep sinks must be indirectly drained with an <u>air gap</u> to prevent backflow.</i>	
Dump sink(s) , if required <i>A dump sink is required if beverages (coffee, smoothies, bar drinks, etc.) will be routinely emptied.</i>	

OUTER OPENINGS	
Will there be any roll-up doors/windows to the outside? <i>Examples: garage doors, roll up windows</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
How will the entry of pests be prevented?	
REFUSE / RECYCLABLES	
Where will the garbage/recyclables be stored within the facility?	
Is there an area designated for garbage can or floor mat cleaning?	YES <input type="checkbox"/> NO <input type="checkbox"/>
Will a dumpster be used to store refuse/recyclables outside of the facility? <i>Please ensure location is indicated on plans</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Is the dumpster installed on smooth pavement, with tight fitting lids, curbed and sloped to drain?	YES <input type="checkbox"/> NO <input type="checkbox"/>
RESTROOMS	
Do all restrooms have trash receptacles with lids? <i>Required for all restrooms used by women.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Do any restrooms have self-closing, tight-fitting doors? <i>Required of all restrooms located in kitchen areas.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
CHEMICAL STORAGE AREA	
Is there a separate, dedicated area for all chemicals and toxic materials?	YES <input type="checkbox"/> NO <input type="checkbox"/>
What kind of chemical sanitizer will be used for food and food contact surfaces? <i>Note: Appropriate test strips must be available for each sanitizer used to ensure effective concentration.</i>	<input type="checkbox"/> Chlorine <input type="checkbox"/> Quaternary Ammonium <input type="checkbox"/> Iodine
DRESSING ROOMS / EMPLOYEE BELONGINGS	
Describe the storage facilities provided for employee's personal belongings and clothing.	
Describe where all soiled linens (if applicable) will be stored.	

INTERIOR FINISHES

Note: Floor, wall, and ceiling surfaces in areas where food is prepared, stored or served; areas where dishes are cleaned; as well as restrooms must be smooth and easily cleanable. Ensure sheen of paint is provided.

This information is included in the plans

ROOM	FLOORS	WALLS	CEILING	COVING
Food prep areas				
Warewashing area				
Dry food storage				
Chemical storage				
Utility rooms/mop sink				
Restrooms				
Walk-in Cooler/Freezer				
Other (please list)				

EQUIPMENT

Equipment make and model of ALL equipment and/or specification sheets are attached and/or included in plans with item numbers matching the layout drawing

Will all equipment be approved by a certified testing agency, such as NSF, ETL Sanitation, UL Sanitation, etc.?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
Will a dish machine be installed?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If so, what type of sanitizing?	CHEMICAL <input type="checkbox"/>	HEAT <input type="checkbox"/>	
Are test strips available?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	N/A <input type="checkbox"/>
If heat sanitizing, will there be a maximum registering thermometer (or 160°F temperature sensitive stickers) on site, as required?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	N/A <input type="checkbox"/>

FOOD HANDLING PROCESSES QUESTIONNAIRE

The following questions are used to determine the type of activities is conducted within the facility. They are used to determine risk classification.

FOOD SOURCE	
<p>Will all food be purchased from approved sources?</p> <p><i>Approved sources are those processors inspected by a federal food safety regulatory authority (or equivalent), a cottage food production operation (properly labeled), or another licensed food service operation or retail food establishment.</i></p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
POPULATION	
<p>Does the facility serve mainly a high-risk clientele, including immune-compromised or elderly individuals in a healthcare or assisted living facility?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
FOOD HANDLING PROCESSES	
<p>Will any meat or cheese be sliced or ground on site?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>Will produce be processed (washed, cut, and handled) in the establishment?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>Will any food be cooled and reheated?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>What kind of foods?</p>	
<p>What is the method for ensuring foods are cooled rapidly?</p> <p><i>Food MUST be cooled from 135°F to 70°F within 2 hours, and to 41°F or below within an additional 4 hours.</i></p>	
<p>How will foods be reheated?</p> <p><i>All reheated food MUST reach 165°F within 2 hours.</i></p>	
<p>Will any TCS foods be held without temperature control?</p> <p><i>Example: timing sliced tomatoes instead of maintaining at 41°F or below.</i></p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>If time is used as a public health control for any TCS foods, Please explain process and attach required written procedures.</p>	
<p>Will any foods be served raw or undercooked?</p> <p><i>Example: burgers, eggs, oysters, fish for sushi</i></p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>Will there be a consumer advisory on menu?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>If fish will be served undercooked, is appropriate documentation for freezing for parasite destruction attached?</p>	<p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>

SPECIALIZED PROCESSES	
Will there be any of the following processes be conducted within the facility? Please check all which apply.	
Canning/bottling	YES <input type="checkbox"/> NO <input type="checkbox"/>
Making cheese on site	YES <input type="checkbox"/> NO <input type="checkbox"/>
Smoking/curing meats for preservation	YES <input type="checkbox"/> NO <input type="checkbox"/>
Packaging fresh pressed-juice	YES <input type="checkbox"/> NO <input type="checkbox"/>
Reduced oxygen packaging (using a vacuum sealer) <i>Defined as the reduction of the amount of oxygen in a package by removing oxygen; displacing oxygen and replacing it with another gas or combination of gases</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Cook/chill packaging <i>Defined as food that is hot filled into impermeable bags which have the air expelled and are then sealed or crimped closed. The bagged food is rapidly chilled and refrigerated</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Sous vide cooking <i>Defined as raw or partially cooked food vacuum packaged in an impermeable bag, cooked in the bag, rapidly chilled, and refrigerated</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Acidification of food for preservation (i.e. acidification of sushi rice)	YES <input type="checkbox"/> NO <input type="checkbox"/>
Sale of oyster, clams, mussels from a shellfish tank	YES <input type="checkbox"/> NO <input type="checkbox"/>
Sprouting of seeds	YES <input type="checkbox"/> NO <input type="checkbox"/>
Making yogurt on site	YES <input type="checkbox"/> NO <input type="checkbox"/>
Making of Kimchi on site	YES <input type="checkbox"/> NO <input type="checkbox"/>
Making of Kombucha on site	YES <input type="checkbox"/> NO <input type="checkbox"/>
*If any above are marked yes, please attach variance from ODA/ODH as well as HACCP plan(s).	YES <input type="checkbox"/> NO <input type="checkbox"/> N/A <input type="checkbox"/>
OFFSITE SERVICE	
Will facility be catering? <i>Catering is defined as "an operation where food is prepared for serving at a function or event held at an off-premise site, for a charge determined on a per-function or per-event basis. The charge is contracted for on the basis of the entire luncheon, banquet, or event and not on the basis of an individual meal or lunch.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
How will temperatures be maintained during transport? <i>Please include any transportation equipment along with plans</i>	
How will handwashing be conducted at offsite locations?	
Will any food be transported from your operation to be sold/served in other locations (not catering)? <i>Wholesaling requires an additional license from the Ohio Department of Agriculture (614) 728-6250.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
If so, which other locations?	
How will temperatures be maintained during transport?	

CUSTOMER SELF SERVICE	
Will there be any of the following:	
Salad bar/buffet?	YES <input type="checkbox"/> NO <input type="checkbox"/>
Bulk foods for customer self-service? <i>Example: donuts, bulk nuts, bulk candies</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
If yes, how will contamination from customers be prevented? <i>Example: Sneeze guard, covered containers, use of deli tissue, tongs</i>	
EMPLOYEE HEALTH*	
Is copy of employee health policy attached? (we will provide if needed) <i>A written employee health policy is required. Plan must detail how the facility complies with rule 3717-1-02.1 of the Administrative Code. Plan must be acknowledged by each employee in a verifiable manner.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Is copy of vomitus cleanup policy attached? (we will provide if needed) <i>Written procedures for employees to follow when responding to vomiting or diarrheal events that involve discharge onto surfaces in the facility. The procedures shall address the specific actions employees must take to minimize the spread of contamination and the exposure of employees, consumers, food, and surfaces to vomitus or fecal matter.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Are test strips with the appropriate range available for chemical sanitizer used in vomitus cleanup policy?	YES <input type="checkbox"/> NO <input type="checkbox"/>
EDUCATION REQUIREMENTS	
Will there be a member of management with ODH Manager Certification in Food Protection? <i>Required of all risk level 3 and 4 food facilities. Please attach copy of certificate(s) if available.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>
Will there be a Person-in-Charge Food Safety certified employee on site at all times? <i>Required of all facilities. Please attach copy of certificate(s) if available.</i>	YES <input type="checkbox"/> NO <input type="checkbox"/>

This page intentionally left blank

PLAN SUBMISSION CHECKLIST

The following must be submitted to our office for approval of proposed food service operation and/or retail food establishment. Failure to provide required information will result in the plans being unapproved.

- Plan Review fee
- Completed Plan Review Application
 - All required policies/procedures
- Proposed menu or list of foods to be served
- Facility floor plan. The floor plans must be drawn reasonably to scale and must include:
 - Square footage of facility
 - Site plan showing location of any outside equipment such as grease traps and dumpsters
 - Location of all entrances and exits, loading docks, etc.
 - Location and layout of all proposed pieces of equipment
 - Location of dry storage and chemical storage
 - Designated area for storage of employee belongings
 - Interior and exterior seating (if applicable)
- Lighting schedule showing the location of all overhead lighting, including inside walk in coolers/freezers
- Finish schedule of floors, walls, and ceilings in all areas
- Manufacturer's make and model of all equipment (all equipment must be commercial-grade, NSF, ETL Sanitation, UL Sanitation, etc.)
- Plumbing
 - Location of water supply lines to building
 - Location of all plumbing fixtures, including hand sinks, mop sinks, warewashing and food prep sinks
 - Location and size of grease interceptor
 - Location and capacity of water heater
 - Location of wastewater connections

PRELICENSING INSPECTION CHECKLIST

The following must be completed and/or available for review during the prelicensing inspection. Failure to provide required information may result in a delay in opening.

Approvals

- Certificate of occupancy received from city, village or township Building Department
- Final approval from the Plumbing Division has been obtained
- Fire suppression system, if applicable, has been tested and passed

Construction

- All construction equipment removed and all work is complete
- The facility is constructed according to the approved plans
- Openings where utility lines pass through cabinets, floors, walls and ceilings are sealed

Equipment

- All equipment is commercial grade, and has been approved by the Board of Health
- All equipment is correctly installed and working properly
- All refrigeration is holding 41°F or below, and all refrigerators have working thermometers
- Dish machine, if installed, properly functioning
- Irreversible, maximum registering thermometer available (if using heat sanitizing dish machine)
- Food safety thermometer is available
 - Small-diameter probe required if thin meats are being cooked
- Gloves and/or utensils to prevent bare hand contact
- All surfaces have been cleaned & sanitized and are ready to use

Sinks

- All sinks are secured and sealed to wall
- Hot water is available at all sinks
- Stoppers available for the 3 compartment sink All hand sinks are properly stocked with soap, means of drying hands, garbage can, and handwashing signage.
 - Sanitizer on site, with appropriate test strips
 - Dish soap/detergent for 3 compartment sink
 - All chemicals properly labeled and stored

Refuse

- Dumpster is in place, with tight-fitting lid; foundation is paved, curbed and sloped to drain
- Covered receptacle in female restroom(s)

Administrative

- Consumer advisory on menu (if applicable)
- Written procedures for foods using time as a public health control available for review (if applicable)
- Copy of employee health policy
- Written procedures for vomitus/diarrheal cleanup
- Food choking poster provided for FSOs
- Manager Food Safety certified manager (at least one per risk level 3-4; must be completed by 30 day inspection)
- Person-in-Charge Food Safety certified manager (at least one required onsite during all operating hours)
- Signed application and payment for license fee has been submitted
